

Course Promise and Business Outcome

MODULE 1

Shorter Ramp Time

Faster Time to Market

More Sales

Larger Sales Pipeline

AI supports practice

Human judgment stays central

Why This Skill Matters Now

MODULE 1

Manual work slows teams

Buyers expect proof

Complex decisions need clarity

Practice builds confidence

Consistency protects trust

What Changes When AI Becomes a Working Partner

MODULE 1

The Core Workflow

MODULE 1

01

Prepare with context

02

Act with purpose

03

Review the output

04

Improve the response

05

Transfer to daily work

Strong vs. Weak Example

MODULE 2

Weak: generic response

Learners compare differences

- Strong: buyer-specific value
- Clear next step
- Evidence supports claims
- Learners compare differences

Practical AI Prompt

MODULE 2

- Act as my coach
- Review my answer
- Keep facts grounded
- Ask one question
- Suggest stronger wording

Real-World Scenario

MODULE 2

Limited information

Time pressure

Stakeholder concern

Business outcome at risk

Learners choose approach

Guided Practice

MODULE 2

01

Draft first response

02

Request AI feedback

03

Revise for clarity

04

Check business value

05

Share improved version

Role-Play Round

MODULE 2

AI plays stakeholder

Learner handles resistance

Practice realistic objections

Pause for coaching

Retry stronger response

Debrief and Coaching

MODULE 3

What worked

Where value appeared

Next improvement

What missed

What changed

AI Teammate Build

MODULE 3

01

Define teammate role

02

List required inputs

03

Set output format

04

Add quality rules

05

Test with scenario

Checklist or Job Aid

MODULE 3

Case Study

MODULE 3

Business challenge

Buyer pain

Available evidence

Recommended approach

Lessons learned

Group Activity

MODULE 3

01

Compare approaches

02

Choose strongest option

03

Explain the reasoning

04

Improve with feedback

05

Share team takeaway

Assessment Task

MODULE 4

01

Complete realistic task

02

Submit AI prompts

03

Show revised output

04

Explain improvement

05

Name next action

Common Mistakes

MODULE 4

Generic prompts

Unsupported claims

Missing buyer context

Tone mismatch

Skipping human review

Quality Standards

MODULE 4

Accurate facts

Relevant context

Clear business value

Appropriate tone

Human judgment applied

Transfer to Daily Work

MODULE 4

01

Choose one live task

02

Use the workflow
